# Second Annual Sale

At “Kaludabah” Mudgee NSW

On Property Sale, 1pm, June 8th 2017

70 Full Blood Bulls    Semen & Embryo Packages

[baldridgecattle.com.au](http://baldridgecattle.com.au)

# Welcome to Kaludabah!

It is with great pleasure that we welcome all those attending the Second Annual Bald Ridge Wagyu Sale on property at Kaludabah. We are proud to present an extensive line up of bulls, semen and embryo packages for sale.

This year we have a number of black/red 100% fullblood wagyu bulls on offer. This represents the first opportunity for buyers to have access to these bulls on a commercial basis. These young bulls present in exceptional condition, combining all the attributes of a fullblood black with the added frame and growth of the fullblood red.

Bald Ridge Wagyu was established in 1997. Over the past twenty years, we have carried out intensive embryo flushing programmes to develop an elite herd of exceptional Red and Black Fullblood Japanese Wagyu. Our stud cattle and genetics are sold in Australia and worldwide.

The Wagyu Breed is currently experiencing a significant growth in markets and returns. We believe the bulls and genetics on offer today present a great opportunity for all prospective buyers.

Thank you for your support and attendance.

From the Kaludabah Team,  
Rick and Dawne Hunter,  
Hallie and Sam,  
Abby and Matt,  
Aaron

*Rick and Dawne Hunter*

## KOTOFUKU (DSAFJX669)

KOTOFUKU represents a rare Michifuku (IMP JAP) /Tanifuku Doi (IMP JAP) cross bloodline seldom available outside of Japan.

Kotofuku supports an REA EBV ranked in the top 5% of the breed. His Sire, the renowned Michifuku (IMP JAP), is a proven benchmark for all Wagyu sires in respect to high marbling carcass production with an IMF% of +1.3, one of the highest outside of Japan.

Kotofuku's dam, Kotomichan, comes from a very high marbling female bloodline and the only female outside of Japan sired by the Japanese legend, Tanifuku Doi 1606 (IMP JAP). Kotomichan's dam, Mitsutaka, is World K's highest stud bull producing female.

To add high marbling carcass production to your herd, look no further than what Bald Ridges' KOTOFUKU semen can do for your wagyu enterprise.

- + FOUNDATION BLOODLINES
- + BENCHMARK GENETICS
- + HIGH MARBLING CARCASSES
- + TOP IMF EBV'S
- + F111 FREE

SEMEN IS AVAILABLE NOW TO THE US AND OIE COUNTRIES.  
PLEASE CONTACT US FOR ENQUIRIES.

**MULTIMIN<sup>®</sup>**  
Injection for Cattle

**OPEN THE WINDOW OF PRODUCTIVITY  
BEFORE JOINING.**

Deliver essential trace minerals quickly when they have the most impact.

MULTIMIN<sup>®</sup> is a multi-mineral injection designed to be used at critical times in the production cycle. One such window of productivity is the 30 days before joining. Given during this time, the minerals in Multiminn can assist conception and embryo survival, leading to a tighter calving pattern.

- Contains selenium, copper, zinc and manganese, trace minerals that are essential for conception and maintenance of pregnancy.
- Improve fertility and improve your return.
